About FinThrive

FinThrive is advancing the healthcare economy. We rethink revenue management to pave the way for a healthcare system that ensures every transaction and patient experience is addressed holistically. We're making breakthroughs in technology—developing award-winning revenue management solutions that adapt with healthcare professionals, freeing providers and payers from complexity and inefficiency, so they can focus on doing their best work. Our end-to-end revenue management platform delivers a smarter, smoother revenue experience that increases revenue, reduces costs, expands cash collections, and ensures regulatory compliance across the entire revenue cycle continuum. We've delivered over $10 billion in net revenue and cash to more than 3,245 customers worldwide. When healthcare finance becomes effortless, the boundaries of what's possible in healthcare expand. About Our Culture

Find Balance with Our Colleague-friendly Organization

We prioritize work-life balance and flexibility for our colleagues, which is why FinThrive offers a conducive and stress-free work culture. This, along with fantastic salary and benefits packages will help you thrive in your career.

Take Time to Recharge and Pursue Your Passions

At FinThrive, we believe in the human side of work and the importance of taking time to pursue your passions and recharge. Whether it's traveling the world, spending quality time with loved ones, or giving back to your community, we want you to enjoy all the good that life has to offer.

Be Part of a Positive and Supportive Work Environment

FinThrive colleagues value diversity, inclusivity, and respect, and we're committed to creating a positive and supportive work environment where every colleague's voice is heard and celebrated. At FinThrive, you're a valuable member of our team, and your opinions matter!

Grow and Excel Your Career with Training and Education

FinThrive is committed to helping our colleagues grow and excel in their careers, which is why we offer top-notch training and education to sharpen your skills and prepare you for whatever lies ahead. With our support, you'll be well-equipped to succeed not just in your current role but also in your future endeavors.

What we offer

- Term life, Accidental & Medical Insurance
- Professional development opportunities
- Hybrid work environment

Impact you will make

We are looking for a talented and experienced C#, SQL, and Angular Developer and Support professional to join our team. As a Developer and Support Specialist, you will be responsible for designing, developing, and maintaining software applications using C# programming language, SQL

databases, and Angular framework. Additionally, you will provide technical support to end-users, troubleshoot issues, and ensure the smooth operation of our software applications.

What you will do

Major Responsibilities/Activities:

- Design, develop, and maintain software applications using C#, SQL, and Angular technologies
- Collaborate with cross-functional teams to gather and analyze business requirements and translate them into functional software solutions
- Develop high-quality code following best practices and coding standards, ensuring scalability, maintainability, and performance
- Write efficient and optimized SQL queries, stored procedures, and database design to support the software applications
- Utilize Angular framework to build user-friendly and responsive web interfaces
- Perform unit testing and debugging to ensure the reliability and functionality of software applications
- Provide technical support to end-users by troubleshooting issues, resolving software-related problems, and answering inquiries
- Investigate and diagnose complex issues reported by users, collaborating with development teams to identify and implement solutions
- Maintain a knowledge base of known issues, troubleshooting steps, and resolutions to assist in providing efficient support services
- Stay up to date with the latest technologies, trends, and best practices in C#, SQL, and Angular development to continuously improve skills and provide expert support

What you will bring

- Minimum of 3 years of professional experience in software development using C#, SQL, and Angular
- Strong proficiency in C# programming language, SQL queries, and relational database concepts
- Experience in developing web applications using Angular framework
- Familiarity with front-end web technologies such as HTML, CSS, and JavaScript
- Solid understanding of software development principles, methodologies, and best practices
- Strong problem-solving and analytical skills to identify and resolve complex technical issues
- Excellent communication and interpersonal skills to interact with both technical and non-technical stakeholders effectively
- Ability to work independently and as part of a team, managing priorities and meeting deadlines
- Knowledge of software support processes, including ticketing systems and customer support best practices, is a plus

What we would like to see

- Bachelor's degree in Computer Science, Information Technology, or a related field
- Healthcare revenue cycle experience preferred
- Customer Service experience preferred
- Salesforce.com experience a plus
