

Ensure Revenue with a Standby Claims Partner

In the event of a business disruption, you need to be able to seamlessly switch to another vendor to resume claims processing as soon as possible. You can't wait months for your affected vendor to turn their system back on. You need to generate revenue and protect your cash flow.

With the full capability of our standard solution, the **Standby Claims Manager option** helps providers like you improve billing accuracy and compliance while protecting your revenue and operations. Our content-rich, integrated billing and clearinghouse solution:

- Maximizes first-pass payment rates
- Helps prevent denials with accuracy
- Advanced implementation and backup

Key benefits

-  Innovative solution to help minimize business and clinical operation disruptions
-  Tailored approach to meet specific customer needs with cybersecurity and business continuity challenges
-  Proven performance with deep experience, a robust platform and expertise in urgent solution deployment

Proven results

-  Customers see an average rejection rate of **<2%** versus up to 15% for other vendors
-  Our solution helps eliminate up to **90%** of unnecessary follow-up
-  Customers send **>6 billion** clearinghouse and claims transactions annually

Break the cycle of inefficiency.
