- 50 revenue cycle FTEs reassigned** by Year 3 due to automated verification batches.

VOICE OF THE CUSTOMER

“Before FinThrive’s end-to-end solution, every piece of our revenue cycle had separate databases that we couldn’t integrate. We hired people just to merge reports, and I still couldn’t tell when something happened on the back end, so we couldn’t get claims clean out the door to get the money in faster.”

VP finance and revenue cycle, healthcare

“FinThrive allows us to process accurate claims timely. If claims go out the door clean then we get paid timely too. We see a decrease in denials and an increase in payments.”

Director of patient financial services, healthcare
